

# Does Your Business Need a Web Presence

Lynn Dye, Owner of Extreme Virtual Support, Inc. Presents...A Really Simple Website Solution

You are a small and established business. The years have slipped by and you realize you've never taken the time to establish a web presence.

Maybe you don't have the time to figure out domains, web design, layout and how to 'get published'. Perhaps writing copy for your website has stopped you.

You've heard it makes good business sense to be on-line, even if all your customers/clients know you. If you've been thinking you should have a basic website so your customers can quickly look up your address, phone number or hours, I think my Really Simple Website Solution will fit your needs.

I believe every business needs to be on-line and at a reasonable cost. My rates are tiered between \$600-\$1,000, depending on your needs.

- Advice and Planning
- Domain Name & Web Hosting Assistance
- Writing Page content
- Insertion of pictures/graphics
